HIBERNIA ATLANTIC OPENS NEW OFFICE IN LONDON U.K.

ADDRESSING INCREASED DEMAND FROM ITS GLOBAL WHOLESALE AND ENTERPRISE CLIENTS

SUMMIT, NJ & DUBLIN, IRELAND- August 19, 2010 - [Hibernia Atlantic](#), the only diverse transAtlantic high bandwidth connectivity provider, announces today the opening of its office facility located at 55 Old Broad Street in London, UK. The new office is a result of Hibernia's strong growth in Europe and the increased customer demand for its robust network services platform globally.

The Hibernia network was built on over 24,000 kilometers of fiber optic cable offering 'security through diversity' with its over 100 redundant Points of Presence (PoPs). Global clients rely on Hibernia to securely deliver their voice and data traffic seamlessly across the globe to countries including Canada, Ireland, Germany, United Kingdom and the United States. Its [Global Financial Network](#), specifically designed for the financial community, is layered over Hibernia's diverse footprint, linking key financial cities throughout Europe, Canada and the United States.

With an extensive product portfolio designed for both the wholesale and Enterprise market segments, Hibernia Atlantic offers high performance, flexible connectivity options ranging from Ethernet to Wavelengths, along with traditional Sonet/SDH services. Built on a self-healing ring on diverse paths, Hibernia's next-generation network offers secure low latency connectivity.

"Hibernia's strong commitment to serving the European marketplace is demonstrated by the opening of our newest office," states [Eric Gutshall](#), Executive Vice President of Sales & Marketing of Hibernia Atlantic. "We look forward to further meeting the demanding requirements of our clients, and providing the unmatched service and support we have been known for around the globe."

About Hibernia Atlantic:

Hibernia Atlantic is the only American-owned, diverse transAtlantic high bandwidth connectivity provider. Hibernia is a subsidiary of Columbia Ventures Corporation (CVC). It is a TransAtlantic submarine cable and terrestrial fiber network that offers over 100 redundant network Points of Presence (PoPs) throughout Canada, US, UK and mainland Europe on over 24,000 kilometers of network. Hibernia provides secure and diverse

dedicated Ethernet, DTM and optical-level service up to GigE, 10G and LanPhy wavelengths and traditional SONET/SDH services. In addition, Hibernia offers wholesale capacity prices, unparalleled support, flexibility and service.
